Statement of Reasons for Allowance

1. Claims 35-135 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The present invention is directed to a method for name and address handling within a document..

Claims 35, 41, 47, 70, 77, 84, 120, 127, 131-132, and 134-135 recite, or similarly recite, the steps of: entering a first information in the first application program; marking or identifying without user intervention the first information to alert the user that the first information can be utilized in a second application program; and responding to a user selection by inserting a second information into the document, the second information associated with the first information from a second application program.

Claims 53, 59, and 65 recite, or similarly recite, the steps of: entering a first information in the first application program; marking without user intervention the first information to alert the user that the first information can be utilized in a second application program; and responding to a user selection by performing an operation related to a second information, the second information associated with the first information from the second application program.

Claims 91, 97, 103 recite, or similarly recite, the steps of: identifying without user intervention or designation the first information and responding to a user selection by performing an operation related to a second information, the second information associated with the first information from the second application program.

Claims 119 and 130 recite, or similarly recite, the steps of: initializing the second application program; searching, using the second application program, for the second information associated with the first information; and if said second information exists, retrieving and displaying the second information; wherein said user selection comprises: selecting a menu indicator for the menu; opening the menu; selecting a choice in the menu; and activating the selected choice in the menu; wherein selection the menu indicator comprises moving the mouse pointer to the menu indicator; wherein the opening of a menu comprises clicking on the menu indicator with a mouse button; and wherein the second information is associated with at least part of the identified first information.

The closest prior art, Tso (US 6,085,201) and Pandit (US 5,859,636), show a substantially similar method for marking and inserting information. However, Tso and Pandit, singularly or in combination still fail to anticipate or render the above cited limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
